Call Reason Definitions

Status Check:

The status check box is used when inquiries are received from Law Enforcement Officers to the WRC in regards to a subject they have encountered. The status check box is used to reflect the nature of the request as well as the legislative provisions under which the information is collected and released. Law enforcement Officers may call to verify the Immigration status of a subject because they have suspicion a subject may not have legal status in Canada and therefore may be of interest to CBSA. Law Enforcement Officers may also call to confirm the status of a subject they have in custody. It should be noted, the status check box is not always reflective of only Immigration status queries but is reflective of the source on which the WRC makes any determination.

Database Verification:

The database check box is used when inquiries are received from CBSA officers in regards to the performance of a specific database query. The database check box is used to reflect the nature of the request. CBSA officers may call to ask the WRC to conduct a query of a database that they do not have access at that point in time or with which they are having technological issues. The WRC officer simply reads the information requested from the database screen to the CBSA officer, and WRC does not make any determination of status for these calls.

Warrant Inquiry:

The warrant inquiry check box is used when inquiries are received from Law Enforcement Officers regarding an individual with an Immigration Warrant. The warrant inquiry check box is used to reflect the nature of the request. Law Enforcement Officers may call to verify and confirm the Immigration warrant due to a hit they encountered on their police database CPIC (Canadian Police Information Centre).

PDP Inquiry:

The PDP inquiry check box is used when inquiries are received from Law Enforcement Officers regarding an individual who is a Previously Deported Person. The PDP inquiry check box is used to reflect the nature of the request. Law Enforcement Officers may call to verify and confirm the Previously Deported Person due to a hit they encountered on their police database CPIC (Canadian Police Information Centre).

Follow-up Call:

A follow-up call is selected when a Law Enforcement Officer or CBSA Officer calls again for the same case after the initial call, with follow up information or questions. This box is selected to reflect the nature of the request.

Photo Request:

The Photo Request check box is used when a Law Enforcement Officer or CBSA Officer requests a photo of a subject who has an Immigration Warrant or is a Previously Deported Person. This could be as a result of an arrest made or an investigation being conducted.

Fingerprints Request:

The Fingerprint Request check box is used when a Law Enforcement Officer or CBSA Officer requests fingerprints of a subject who has an Immigration Warrant or is a Previously Deported Person. This could be as a result of an arrest made or an investigation being conducted.

Special Event:

This check box is used for special projects that need to be accounted for statistically at the Warrant Response Centre.

Other:

This check box is used for telephone calls that fall outside of the standard Call Reasons.
